

Client: 7-Eleven

Programs: Mergers & Acquisitions
Fuels Tank Replacement
C-Store Renovations

Locations: + 1,000 Sites – Nationwide

As part of the Mergers and Acquisition Team Designers Edge plays a critical role in collecting Existing Conditions Data (Point Cloud Scans, Highly Detailed CAD Drawings, 360 Degree Images, and HD Photos) for Properties that 7-Eleven is seeking to purchase or lease.

The nature of these projects is secretive, and our personnel go through great lengths to not disclose the Brands in which 7-Eleven is considering purchase, and while we are conducting the Surveys the people on site are not aware of 7-Eleven interest.

Projects are assigned to us in groups from (5) to (100) and we typically complete all the Surveys within 10 business days regardless of the markets in the US.
