As part of the Mergers and Acquisition Team Designers Edge plays a critical role in collecting Existing Conditions Data (Point Cloud Scans, Highly Detailed CAD Drawings, 360 Degree Images, and HD Photos) for Regional Supermarket Chains that Ahold is seeking to purchase.

The nature of these projects is secretive, and our personnel go through great lengths to not disclose the Brands Ahold is considering purchase and go so far as to complete the Full Site Survey overnight in less than (4) hours utilizing (3) Survey Teams.
